Dylan Jorgensen

AI keynote speaker & creator of Dylan Curious, **making AI clear for any audience.**

40K+	162.2K	CES · NAB · Ai4	Worldwide
COMMUNITY	MONTHLY VIEWS	ON STAGE	AVAILABLE TO SPEAK

ABOUT

Dylan Jorgensen, known online as **Dylan Curious**, is an AI keynote speaker who makes artificial intelligence clear for any audience. A former startup CTO and **Zappos** alum, he now follows AI full-time for a community of more than 40,000, co-hosts **AI Pod** with Wes Roth, and has been featured at **CES**, **NAB Show** and **Ai4**. On stage he does one thing exceptionally well: turn the most important, and most confusing, technology of our time into something a room full of people actually understands. No hype, no doom, no jargon.

SIGNATURE TALKS

Where AI Actually Is, and Where It's Going

A clear-eyed map of what AI can and can't do today, and how to tell real breakthroughs from hype.

AI for Your Industry

What the technology really means for your field, practical uses, honest limits, and what to do next.

The Human Side of AI

Ethics, work, and trust, the bigger questions leaders and teams need to be asking now.

FORMATS

- Keynotes & main-stage talks
- Fireside chats & interviews
- Panels & audience Q&A
- Workshops & briefings

FEATURED

CES · NAB Show · Ai4 · AI Pod
